Cape Breton and Scottish Piano performed by Doug MacPhee

Fire a shot in any direction in Cape Breton and you'll hit a dozen fiddlers, as many stepdancers, a sizable number of pipers, and at least two or three pianists. Now the fiddlers make a lot of records, the pipers make some, the stepdancers understandably don't make any; and the pianists, not so understandably, don't do much better than the stepdancers. Doug MacPhee has changed this and offers a delightful album of Cape Breton versions of classic dance tunes.
