
Performer Index

This index is alphabetic by last name. It includes the names of artists, groups and scholars listed on the front of the album and cassette covers. The names of all recordings on which the person or group is listed are given following a semi colon. If an entire album is made by a group, the list includes both the group name and the names of the individuals making up the group. With recordings by "various artists," only the names of the solo artists and groups are entered.

- Abbott, O J: Irish and British Songs from the Ottawa Valley, Folk Songs of Ontario, Lumbering Songs from the Ontario Shanties, Songs of the Great Lakes.
